

# THE CENTRAL CHRONICLE

We've had a busy start to Term 4 here at Oaklands Central School

## EVENTS

**Friday 9th November**  
Remembrance Day  
Kinder Orientation Morning

**Tuesday 13th November**  
Grandparents Day

**Wednesday 14th November**  
Whole School Assembly

**Friday 16th November**  
Finley PSSA Round Robin at Coreen  
Kinder Orientation Morning  
Year 12 Graduation Dinner

**Monday 19th November**  
Year 4/5/6 Narrabeen Excursion  
Dr Karl Secondary School Presentation

## PRINCIPAL'S PERSPECTIVE

Dear Parents and Caregivers,

By now you will have received our letter and survey on the school newsletter. I would really encourage everyone to participate in our review. The newsletter is one of our prime ways of communicating with you, our community, as well as sharing all the wonderful things that our students are involved in. We also put a lot of time, effort and thought into producing the newsletter each fortnight. That means we want to produce an item that is useful, interesting, informative and meets the needs of our whole school community. We are asking that all responses to our review are completed by Friday 16<sup>th</sup> November. After considering the responses from all stakeholders, the school executive will decide on any changes that will be introduced. To allow everyone to have their say a copy of the letter / survey will be attached to today's newsletter.

Often I write about the core values that we teach at Oaklands Central School as part of our positive behaviour program. As a school we actively teach students about respect, responsibility, resilience and safety. Last week we had a large number of visitors to the school

for events such as our Careers Day and NAIDOC Day. All of our students really enjoyed these days and learned a lot through their participation. They also shone their light through their behaviour, in particular through the respect they showed to all the presenters. Throughout the week I had the presenters stop me specifically to say how engaged, respectful and polite our students were. It makes me very proud of our students, school and community when I hear comments like this. It shows what great students we have in the school. As part of our Positive Behaviour program we will continue to join with our community in teaching and guiding our students with our core values of responsibility, respect, resilient and safe.

As summer weather hits, it is timely to remember the importance of being sun safe. It is important that all students have a hat. Students without hats will have to stay in the shade during breaks. It would also be beneficial if students applied sunscreen before coming to school each day. The school has been providing sunscreen at lunchtime for any student that needs it. One of the exciting initiatives of the SRC is the installation of a cooled water bottle filler in the playground. They are currently working on this project and we are looking

## PRIMARY NEWS

forward to having it installed for the benefit of our students.

Recently I have been asked about homework for students. This is a topic that is discussed periodically in the news and by our community. There are also lots of different opinions about homework. Research shows that simply giving students homework takes time but does not improve education. There are also legitimate concerns that students need time outside playing and getting exercise. This is especially true given concerns about general health and fitness of Australians. Essentially, some effective homework can benefit students, but simply giving a set amount of homework should be avoided. Our homework policy covers exactly these issues. Research shows us that effective homework includes regular reading at home for younger students. So we encourage all parents to read with your child each night. For older students simply revising that day's learning at school has significant impacts on learning. It improves recall of what they have learned and improves results. Importantly, it also teaches revision skills which are so important for examinations, especially the HSC. **This allows students to shine their lights.** If your child doesn't have set homework, read with them and encourage them to revise their learning from that day.

**Peter Craft**  
Principal

Well Term Four has kicked off with a bang with lots of events taking place over the first few weeks. The students have expressed their enjoyment from the activities they have been able to participate in and have gotten a lot out of these opportunities.

Last week, we went to the Oaklands Town Hall to be entertained by the amazing actors of the Alpha Show. I must say I thoroughly enjoyed the performance myself and had a great laugh. The students really enjoyed the interactive nature of the performance and engaged deeply with the message within the story. It is fantastic that our students had the opportunity to enjoy such a high quality live performance.

On Friday last week, we also had the pleasure of holding our first kindergarten orientation session. It was fantastic to meet all our new kindergarten students for 2019 and get to show them around the school. Our current K/1 students really enjoyed taking our new students for a tour around our school and showing them the ropes in the classroom. We are all looking forward to their next visit.

Don't forget our 4/5/6 students are holding two more car wash afternoons, raising money for the Year 6 Graduation Dinner! The first car wash was a great success and the kids did an awesome job washing all the cars. If you would like to book in there are still plenty of spots

available on Friday 9<sup>th</sup> November and Friday 30<sup>th</sup> November, between 1-3pm.

Over the next few weeks students will be participating in our formal assessments to assist staff in writing our Semester Two reports. Please ensure that students are coming to school ready to put in their best learning effort each day.

Next Tuesday, is our Grandparents/Spoken Word Poetry Day. Our students have been working hard in preparing their recitals ready for the big day, as well as cooking some lovely things to share for afternoon tea. We hope you can come and join us for this special afternoon.

Finally, Wednesday of Week 5 we will be holding our Whole School Assembly. This time it is our kindergarten students' turn to host and we hope you can come along to celebrate our learning triumphs!

Warm regards,

**Sally McRorie**  
Assistant Principal

### ***Stage 1 and 3 Science***

*In science this term Years 1, 2, 5 and 6 are learning about gardening and cooking. We have been split into two groups and alternatively cook and garden on Tuesday afternoons.*

*So far in cooking we have cooked omelettes with Mrs Davis. They were really tasty.*

*In the garden we have planted fresh seedlings that we will maintain and be able to use in our cooking classes. We have used our senses ob-*

*servicing the herbs and dried tomato seeds to try and grow our own tomato plants.*

*We would like to thank the Howlong Nursery for donating the plants and seedlings that we planted in the school vegetable garden.*

*Bella Fenton and Nate Sheridan*

### ***Years 4/5/6 Research project - The Swim***

*This term the Years 4/5/6 students have been given a research project to complete. We are following the journey of Ben Lecomte, who is attempting to swim from Japan to the USA. Tyral Dalitz, a former Oaklands Central School student, is a part of the support crew on Ben's team. We have researched and followed along with the journey and we have sent questions to Ben and Tyral. Last week we received replies from the middle of the Pacific Ocean.*

*So far we have focused on 'The Swim', the plastics and the impact these have on the ocean and the marine life.*

*As part of our project we need to design and build an object that could help collect plastics from the ocean.*

*We have all enjoyed the challenge and completing the research about 'The Swim'.*

*Holly Lebbos*

## HEAD TEACHER'S TAUNT

Over the last fortnight we have had a number of exciting opportunities for our students. While our core focus is providing lead teaching to provide the development of life-long learners and connecting with the local community to achieve this, we also thrive on the opportunities we can give our students in such a small school.

### **Australian Defence Force Talk**

On Thursday 25<sup>th</sup> October we had a representative from the Royal Australian Air Force and Royal Australian Navy come and share information to our secondary students about

the defence force. It enabled students to consider another career option and gain an insight to the defence force in Australia.

### **Careers Day**

On Friday 26<sup>th</sup> October the whole school participated in short workshops to learn more about future career options. The workshops included being a chef and making a range of dips, learning the ins and outs of a graffiti artist and making artworks for the school and gaining an insight into skin care and making an exfoliator. Finally students had a workshop run by Charles Sturt University-Future Moves, where students learned more about life at university and possible options for courses.

Thank you to all workshop coordinators who made the afternoon such a success.

### **Dental Visit**

On Tuesday 30<sup>th</sup> October we had the local dental health group visit the school. It was a great opportunity for our students to have their teeth checked and obtain free follow up service if required.

### **Halloween Social**

Thank you to Maurice and Yvonne Smith who

coordinated our 'Spooky Social' on Wednesday 31<sup>st</sup> October. The School Hall looked a treat with spooky decorations greeting the students at the door. The students all involved themselves in the games and it was great to see so many dancing and sharing their moves. Thank you to the staff who supervised on the night!

### Alpha Show

On Thursday 1<sup>st</sup> November, we were lucky once again to have the Alpha Show perform in our town. This year we saw 'Snow Queen', where the message was about believing in yourself and finding the strength to make the right choices. It is always high quality theatre, with humour to entertain all ages. We look forward to 'Cinderella' next year.

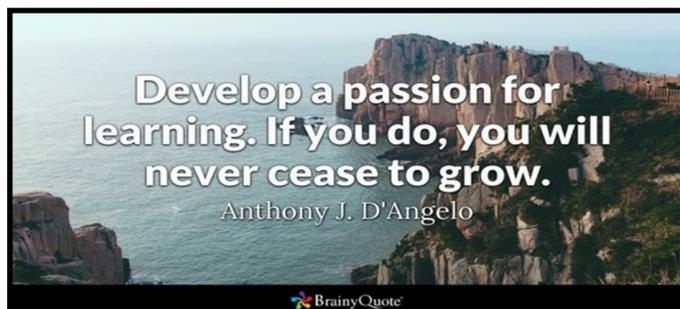

### HSC exams and Art Marking

Taylah and Violet will finalise their Higher School Certificate examinations this week. Well

done to both girls on their efforts. On Monday we had the marking of Violets major work for Visual Arts. The detail and passion behind her work is amazing. We would like to wish you both the very best for the future.

This fortnight I would like to leave you with a quote...

Melinda Elith

Head Teacher Secondary Studies

## Bonegilla Report

*On November 5<sup>th</sup>, Stage 5 students visited Bonegilla to expand their knowledge of migration experiences in History class. They looked at Block 19 and what it was like to live there. They explored the settlement and interacted with various objects, games and art pieces. Throughout their exploration, they saw the many buildings that remained including a chapel, the sleeping quarters and the kitchen. They learned about everyday life such as meals, accommodation, education and religion. They learned that 1 in 20 people have a connection to Bonegilla. Victoria was able to look up the details of her mother's migration from Germany with her parents, as part of the skilled workers assisted migration program.*

*Afterwards Stage 5 travelled to the Hume Weir*

as part of their geography studies. In geography, the students have been studying about dams, weirs and rivers. The weir was tall and loud, they were able to see the workings of the dam wall and its machinery regulating the waters flow. Looking down from the weir, they could see cod, pelicans, ducks and other fish and bird life. Comparisons were made between the Three Gorges Dam, located in China, and the weir, such as length and water regulation.

To end an enjoyable excursion, Mrs Davis treated Stage 5 to some ice creams.

By Liam S, Victoria and Britney

trees and bags made from reeds. It was a lot of fun and an awesome learning experience.

By Yvonne Lebbos

## NAIDOC DAY

On NAIDOC Day we learnt about Aboriginal people and their culture. We had a group of Aboriginal boys come to our school and teach us dances that symbolised native Australian animals, we painted the Aboriginal Flag (some students dot painted theirs) and we were shown a bunch of tools that were used hundreds of years ago. These included a boomerang, hunting spears, bowls carved from

## Careers Day

*At Careers Day, I learnt that after high school there are hundreds of different career choices. You can go to university anywhere in Australia or the world to learn and become a worker of the world.*

*By Noah Little*

## Alpha Show—Snow Queen

*I really liked the show, it was fun and they were good actors. My favourite character was the Clever Princess because she helped Elsa to break the spell.*

*By Georgia Fealy*

## WMA Water—Flood Information Visit

*The flood information day was good. We learnt that floods are dangerous because they can sweep away roads, bridges, cars and more. People should not walk or drive in them or they will get washed away.*

*By Chase Doyle*

## MENS HEALTH

### Oaklands and surrounds Men's Health Group

My name is George Sandral I'm 17, live on a local farm and go to school at St Francis Leeton. I have a passion for fitness and last year I completed a certificate III in fitness training. I am running a 6 week program over summer for men aged 20-65 and would like to invite you to participate in this fun group environment.

This year has been challenging with bugger all rainfall resulting in struggling crops. I'm running these classes to provide a release from the stress of daily life. The exercise will vary in intensity according to personal desire and will be a good opportunity to catch up and support one another over the summer period. The time and day for classes will be worked out depending on who would like to participate. Get your mate on board and call or email me to register or for more information!
